

Silfab

SOLAR

30+ Years of Excellence in Innovation in PV Technologies

With over 30 years of solar experience, Silfab has become an international leader in the development, manufacturing and distribution of quality photovoltaic modules and an innovator of PV solutions.

Why Silfab?

Focus on Quality

HIGH EFFICIENCY. RELIABILITY. POWER PERFORMANCE.

Silfab’s vertically-integrated structure means we have control over the entire PV value chain ensuring that only the best quality materials are used in the manufacturing of our products.

With 25 years of guaranteed durability, our high-efficiency modules deliver an optimal power density that reduces balance of system costs while maximizing system size.

Automated Manufacturing

MADE IN NORTH AMERICA

Located in Greater Toronto, Silfab’s fully-automated manufacturing facility is ranked as having one of the most automated PV processes in the world.

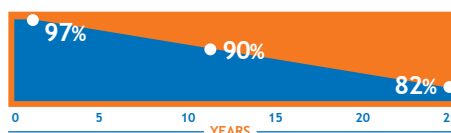

Together, with our worldwide industry partners, Silfab continues to play a significant role in the evolution of photovoltaic products and solutions.

Industry Leading Warranty

25-YEAR LINEAR POWER PERFORMANCE GUARANTEE

- ≥ 97% end of 1st year
- ≥ 90% end of 12th year
- ≥ 82% end of 25th year

- INDUSTRY-LEADING QUALITY AND PERFORMANCE
- MAXIMUM MODULE EFFICIENCY AND POWER DENSITY
- 30+ YEARS OF SOLAR PV KNOWLEDGE AND INNOVATION
- TOTAL AUTOMATION AND MANUFACTURING PRECISION
- PRODUCT CONSISTENCY – LESS THAN 40 PARTS PER MILLION (PPM) RETURN
- LONG-TERM HIGH EFFICIENCY AND DURABILITY
- PROGRESSIVE & DEDICATED R&D EFFORTS
- TECHNICALLY INNOVATIVE PV MODULES DESIGNED FOR THE NORTH AMERICAN ENVIRONMENT
- RESPONSIVE APPROACH TO NEW TECHNOLOGIES
- POSITIVE POWER TOLERANCE (-0/+5W)
- 100% EL TESTING AND SORTING
- CUSTOMIZED SOLUTIONS TO MEET CHANGING INDUSTRY DEMANDS
- LONG-STANDING OEM PARTNERSHIPS WITH MULTIPLE INDUSTRY-LEADING BRANDS
